

Refer a business. Earn commission for as long as they stay a customer.

Trivant's partner program pays 30% recurring commission on every payment your referrals make — not a one-time bounty. Claim a customer, track their AI agents and payments in real time, and request a payout whenever you've earned one.

FOR AS LONG AS THEY PAY

How it works

1

Get invited

The program is invite-only today. Email support@trivant.ai with a bit about yourself to apply.

2

Claim who you refer

Enter the exact email they used to sign up for Trivant. First claim wins, and it's yours for as long as they stay a customer.

3

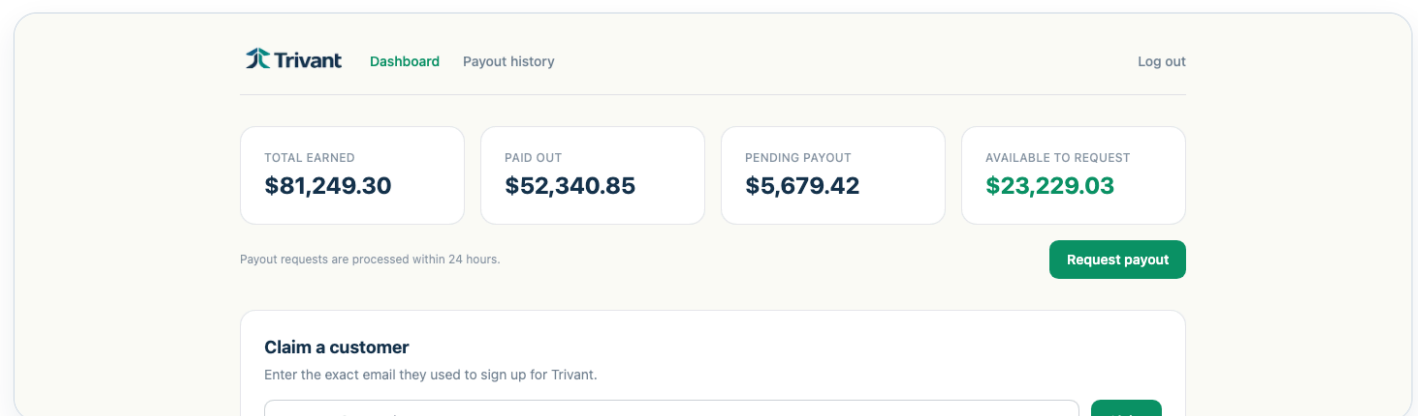

Track it in real time

See every business your referrals run, their plan and trial status, and every payment with its date and amount.

4

Request your payout

Request a payout whenever you have an unpaid balance. We process it within 24 hours.

The screenshot shows the Trivant Partners dashboard. At the top, there's a navigation bar with the Trivant logo, 'Dashboard', 'Payout history', and a 'Log out' link. Below this, there are four summary cards: 'TOTAL EARNED \$81,249.30', 'PAID OUT \$52,340.85', 'PENDING PAYOUT \$5,679.42', and 'AVAILABLE TO REQUEST \$23,229.03'. A green 'Request payout' button is located below these cards. Below the summary cards, there's a section titled 'Claim a customer' with a text input field and a 'Claim' button. The text input field contains the email 'customer@example.com'.
